

## COVID-19 SAFETY VISITOR REQUIREMENTS

*Visitors attending markets organised by Craft Markets Australia must adhere to the following COVID-19 Safety guidelines:*

- Face Masks:** All visitors (except for children under 12 and those with a medical exemption) must wear a face mask when in any indoor area and/or outdoors when physical distancing cannot be maintained.
- QR Code Check-In:** QR codes are displayed at all entrances and dotted around in other areas within the Market. Each individual stall also has their own unique QR code. Please ensure you check in using your phone when visiting the Market and individual Market stalls. If you are unable to check in using your phone or do not have a phone, please visit the Market Day office (location of the Market Day office differs depending on which market you're attending. If you are unsure where the office is, please ask one of our staff members).
- Vaccinations (visitors):** The current Victorian Government directive is that visitors are not required to show their vaccination status when attending markets.
- Vaccinations(stallholders):** It is mandatory for all stallholders (and their workers) to be fully COVID-19 vaccinated under the current Victorian Government directive.

The above measures have been based on the Guidelines issued by the DHHS and State Government. Any updated restrictions and advice may mean that these measures are subject to change.

We take the safety of our stallholders, patrons and staff extremely seriously and we appreciate your understanding with following these additional guidelines to reduce the risk of COVID-19 transmission.
